

Whole-Language Approach: The Only Alternative to Phonics Reading

- Individual Coaching
- Low ratio – 1:4
- Storybook-based
- For kids : 3-9 years

Parent Testimonials

I just want you to know that I think you are doing a terrific job of helping Sher Mayne learn how to read and do word recognition in such a short span of time, six months to be exact. I am so proud that she is able to read quite independently and fluently, when she could only managed to read very simple words when we first sent her to you.

Yours Sincerely,
Sharon Low
Sher Mayne's mummy

Parent Testimonials

Our Son Curtis started the *iReadnWrite* programme at 3years 4 months and by his 4th birthday, he could read P1 level storybooks (with zero reading capability at the onset).

We can attest that this proprietary & holistic 'Whole-word recognition' approach has indeed worked for Curtis. Most importantly, of course the infectious enthusiasm & untrammelled passion of Principal Sook Wai & her teaching team have certainly 'fast-tracked' Curtis' literary improvement & vastly expanded his armamentarium of words.

Sincerely,
Drs JW Chiu & PH Thong
Parents of Curtis Aaron

Parent Testimonials

Daryl (6 years) and Amelia (4 years) have been attending iReadnWrite for almost a year now. The classes have definitely helped them read better now. Especially for Daryl who will be going to Primary One next year, the classes have definitely provided him with a good foundation.

I would certainly recommend this class to any parents who want to give their kids a headstart to a fun and enriching reading experience!

Sincerely,
Auguste Ng
